

## Turbojet Engine Works Repair Request Form

**Please note:**

All repairs will be carried out after consultation with the customer and a cost estimate provided and approval to carry out the work is received.

There is no charge for a quote based on a visual inspection however a quote requiring the dismantling of the engine to determine a more accurate cost will incur a \$55 charge. The fee will be included as part payment if the customer decides to proceed with the work.

Any parts with a cost of more than \$100 will need to be paid for prior to commencement of work.

Be sure to include the **ECU, pump, GSU, fuel valves** with the turbine.

Please **do not** send in batteries and fuel tanks!

Please read the terms and conditions that can be found on this page: <https://www.jet-works.com.au/terms-and-conditions.html>

Please fill in legibly in block letters or with PC!
